Negro Fugitive Captured Here.

Henry Powell, the fugitive from justice, wanted by the police of Georgetown was arrested yesterday morning by patrolman Fred Lind at Centerville, and taken to Georgetown yesterday morning on the 10 o'clock interurban car and turned over to the authorities of that city.

Powell has been wanted in George-

Powell has been wanted in Georgelown for four or five years, on a charge of maiming a negro woman and is believed to be the negro who escaped jail together with three or

four other prisoners.

Jailer Z. T. Lusby was in Paris last week and asked the assistance of the local police in his efforts to locate the negro, who he said was probably around in the neighborhood as he had relatives in Bourbon county.

After giving a idescription of the negro it was learned that a man answering that description had been in jail here on a minor charge. Sunday patrolman Link learned that the negro had been employed by Stuart & O'Brien in cutting hay at Centerville, and early yesterday morning he drove to the home of one of his relatives where he was informed the negro had been stopping.

had been stopping.

After several attempts to gain admission to the house the officer finally forced his way through the door as Powell was coming down the steps half dressed and presumably making an effort to escape. He was brought to Paris and placed in jail where he remained until taken by the officer to Georgetown.

Building New Street.

The city employes under Street Superintendent John Cain. have been engaged the past week in constructing a macadamized street on Fithian avenue, through White Addition, and extending from the Louisville and Nashville railroad bridge. The workmen are now engaged in building a street in front of the hospital property to the base ball park. The street is of an excellent grade and one of the most substantial ever constructed in the

Investigating Disorders.

At Salversville, Magoffin county Saturday afternoon, Lee Patrick, a well-known citizen of that place, was killed by persons believed to be connected with another prominent family of that place. It is reported that the officers had arrested Clarence Erne and Frank Ernett on a charge of killing Patrick and they are in jail. Feeling is running high and the malitia was called out to preserve order. For fear of a clash between the two factions additional troops were asked for and the authorities at Frankfort sent Gen. Roger D. Williams to the scene to in vestigate the conditions, and deterwine if additional troops were needed. General Williams was also ordered to investigate the mine disorders at the Rose Run Mines in Bath county.

Misapprehension of the school act passed at the last sesison of the Genera Assembly, amending the act of 1909, is causing considerable concern among the school trustees of the State, who have een writing to the Department of Education at Frankfort to know whether all the trustees go out of office this year. Superintendent of Public Instruction Barksdale Hamlett issued a letter explaining that the act of 1908 was not changed in that regard, and that only half the board in each county is to be elected this year. That act provided that the terms of all the trustees should expire that year and that threafter the terms of one-half of the trustees should expire each succeeding year. In amending the statute it was necessary to quote that part of it, which gave rise to the impression

The greatest part of the cost in painting is the labor. The paint itself is only about one-third of the cost.

Poor paint makes the labor cost more, first because it takes longer to apply it; second because you have to repaint oftener.

Even the apparent saving in cost per gallon of the poor paint is eaten up by its low covering capacity; it takes more gallons of the poor paint to do the job. Cost of paint and cost of labor are both lower with S. W. P.

Whipping was provided for at least as long ago as the fifteenth century, and in Drake's time the regular trouncing of the ship's boys by the boatswain on Monday morning was regarded as the only means of insuring a fair wind for the rest of the week.

Orphans Win Out In The Ninth Inning.

How Paris lost to Mt. Sterling yesterday afternoon is very clear, but the direct cause will perhaps forever remain a mystery. Boniosh will never forget the lacing the Orphans gave his offering in the fatal round, which snatched an apparent victory from the big chief, and by grace of a criticism goes not amiss.

bat boy to the manager. With the Bourbonites leading by a margin of one run in the ninth, the Orphans were allowed to pile up five runs and carry off a game that should have been annexed to the winning column of the Paris aggregation. All through the contest Bonisoh pitched winning ball, although greatly handiincreased the number of extra hits.

In the ninth round something happenregistered with hits. At any rate we hand is improving nicely. can not see cause to lay the blame upon Boniosh. The four defeats he has suffered since joining the Paris club should have been victories and the majority of the patrons of the game agree in this opinion. If it is mismanagement or prejudice there should be a remedy and in either case it should be applied without hesitancy to satisfy the patrons of the game and help

In the game Saturday afternoon between Paris and Maysville, First Baseman Mollenkamp performed the most unusual stunt of hitting the Bull Dur-ham sign in left field. The long blow came in the seventh inning when Mc!lenkamp drove the sphere to the tobacco sign, and will receive for his pains a check for \$50 from the American Tobacco Co. As the "Bull" sign is located more than four hundred feet from the stand it was impossible to distinguish whether or not the ball struck it above the ground the required number of inches, but outfielder Langenham, of the Maysville club, made affidavit to the effect that the ball struck the sign more than six inches from the ground. During the three years the "Buil" sign has been on the local grounds this is the first time it has been hit by a batted ball in a championship game, although on several occasions many have come very close,

As the result of a fire which started about 2 o'clock Saturday afternoon and which originated in his storeroom. Mr. Dunlap Howe, formerly of this city, Wednesday—Paris at Frankfort. suffered the loss of his entire stock of Thursday—Paris at Richmond, two groceries in Carlisle. The fire spread so rapidly that Mr. Howe was unable to save anything from his store.

By hard work the fire department succeeded in confining the flames to the building where it [originated. Mr. Howe's less on his grocery stock will amount to about \$2,000, while the total loss on the building and goods is estimated to be between \$6,000 and \$7,000.

For a time it was thought the fire would result as seriously as those which have visited that city recently, and several other business houses were endangered. The origin of the fire is unknown. Mr. Howe formerly resided in Paris, where he was engaged in the hotel business, and is the father of Mr. Julian Howe, of Paris.

DEATHS.

SHAWHAN. News of the death of Mr. George H. Shawhan, which occurred in Lone Jack, Mo., has been received in this city. Mr. Shawhan was formerly of Bourbon county, and has for a number of years been identified with the tobac-co and liquor interests of Missouri.

Mr. Shawhan was born in Bourbon county in 1843, and was a son of the late Dan and Minerva Shawhan. His early life was spent on the farm of his father, near Shawhan station, and he was identified with the distillery interests of his father.

At the outbreak of the civil war he enlisted in a company formed by Capt. Harry Bedford, of Bourbon county, and served under Gen. John H. Morgan until captured during the raid of the famous cavalry leader through Ohio.

He was married to Miss Mollie Tatman, of Shawhan, who, with several children survive. Mr. Shawhan had been a prominent business man of Lone Jack, Mo, during the number of years of his residence there

WEEKS-BAMBERG.

-Mr. George Davis Weeks and Miss Fannie Bamberg were united in marriage Thursday afternoon at 5:30 o'clock in Fort Scott, Kansas, at the home of the bride's aunt, Mrs J C Gilbert, Rev. Smith, of the Presbyterian church, officiating. This announcement came as a distinct surprise to the Paris friends of the young couple,

Mr. Weeks left Paris Thursday morning for a trip to Fort Worth, but kept his plans secret. He is yard clerk for the Louisville & Nashville railroad and is the only child of Mrs. Nellie Davis Weeks, and a grandson of Mr. Geo. W.

Davis. The bride was for several years a lege, and while here she met Mr. Weeks, when a strong attatchment was formed, resulting in the happy culmination last Thursday.

The couple returned to Paris Friday night and will reside at the home of Mr. Geo. W. Davis, on High street.

Not in Paris, of Course! The Cincinnati Enuirer yesterday

had the following: "Bobby Quinn, the competent and cheerful Secretary of the Columbus Club, was a visitor, coming from the Blue Grass, where he has been doing a little scouting. Bob says that a scout has to have his eyes peeled and his hand in his pocketbook these days. 'In one town down there' said he, 'there was a pitcher with a hinky-dink motion, "a little fellow who wouldn't be worth 10 cents to a Class A club. I was setting in the stand. 19jy-2t watching another fellow work, when the President of the club slided up to me and asked who I liked certain players on the team. I replied as politely as I oculd and he finally got around to the pitcher, who happened to win the game, through no fault of his own. I saidl he looked pretty good, preferring low. Then the ciub power told me a lot of big league people were after him but he would let me have him for \$600. I told him to let him go to one of the big leagues, and the next day the pitcher was released unconditionally. That's what you're up against all the time in some of these minor leagues were they are trying to sell players to make both ends meet."

DR. DOLLE'S MEN YOU CAN BE CURED BY

DR. C. L. DOLLE, Why Take Treatment That Is Doing You No Good, When a Few Days under the care of Dr. Dolle Will Show You How Easy It Is to Cure These Diseases When the Proper Treatment Is Administered.

Have you treated for months and years, and been disappointed until you think that you cannot be cured? You, no doubt, all this time have been treated by inexperienced doctors who had neither sufficient knowledge nor experience to those how to cure you.

know how to cure you.

These are the diseases of which I have cured so many, justly giving me the repu-tation for cures of which I am so proud. Blood Diseases, Skin Diseases

I will give you treatment that will in a few days cure all rash, spots and every sign and symptom. My treatment gets the poison out of the system instead of driving it in like ordinary treatments. I cure blood diseases and skin disease so they cannot come back ...

Varicocele, causing aching or pain in groin or back, Nervousness, Weakness, Loss of Vitality, Lack of Ambition-

My one-treatment cure is what you should have and what you will have to have to be cured right. Only one visit is required. I do no cutting and you suffer no pain nor trouble. All signs disappear in a few days.

Nervous Troubles, Lost Vitality My combined treatment for these troubles so commonjamong those who have become weak and wormout, who have caused it by folly, dissipation and excesses, is remarkably good. No one believes how quickly it benefits until they have taken it. It overcomes weakness, nervousness, pain in back, lack of energy, ambition and strength—it's just the treatment I have found so effective in treating such diseases.

Kidney and Bladder Troubles are scientifically cured by me. My methods im-mediately benefit you, and the majority of cases I cure come from physicians and specialists who

Piles, Fistulae—I can cure you so quickly and easily that you will be surprised. I will give you just the result and cure you are looking for without a surgical operation.

Acute Diseases—Itching, Burning remedies seldom cure. My treatment stops every symptom and cures in a few days. It is scientific—that's the only sure way to be cured so it will not come back.

that's the only sure way to be cured so it will not come back.

You can take my Treatment without a cent and pay me after I cure you. I know that I can give you new life, new hope, and can restore you back to health and happiness. I know that every man will pay after I have eliminated every trace of disease from his system. Microscopical and analytical urinalysis FREE. I have writeen a book that ought to be in the hands of every suffering man in this country. MARGIN OF PROFIT AND LOSS

Record of the Cost of Production and Sales Will Determine Whether Hens Are Paying.

A flock of hens should be made to pay a good dividend on the investment. If they do not do this there is something radically wrong somewhere along the line.

If you have kept a record of the cost of production and the sales you will be able to tell whether or not your hens are paying. Hens that are laying an average of 50 or 60 per cent. are doing well and will make a good showing on the right side of the cash book. Any averages above that will be so much more gain and will more

than justify keeping the birds. If they fall way below this mark you better investigate and find out the cause of the trouble. It may be that you have a poor strain of birds, that you are not feeding the right kinds of foods or in sufficient quantities, or that you are not giving them the proper attention that they must have in order to be great producers.

Studying Needs of One Breed.

It is poor policy for a beginner to endeavor to keep several breeds of three years old and under; and one of poultry. The probabilities are that he \$200 for three-gaited saddle horses will give them all like attention and food when they need to be treated hotly contested and to every lover of according to their natural dispositions

The results are that he will favor a certain breed because they do better for him, when in reality the others would have done just as well if they had received the treatment which was due them. Do not attempt too much, has engaged for the week, August 12 but select a breed and then a variety and stick to them.

Discard Mongrels.

Mongrel fowls should not be kept for egg production because the eggs will be uniform neither in color nor size. This factor of itself is of enough importance to induce one to select a pure breed, even though the mongrels might possibly lay as well as the purebred fowls, but this is very doubtful.

Gave Up Hope

"I suffered five years, with awful pains, due to womanly troubles," writes Mrs. M. D. McPherson, from Chadbourn, N. C. "They grew worse, till I would often faint, I could not walk at all, and I had an awful hurting in my side; also a headache and a backache.

I gave up and thought I would die, but my husband urged me to try Cardui, so, I began, and the first bottle helped me. By the time the third bottle was used, I could do all my work. All the people around here said I would die, but Cardui relieved me."

For more than 50 years, Cardui has been relieving woman's sufferings, and making weak women strong and well. During this time, thousands of women have written, like Mrs. McPherson, to tell of the really surprising results they obtained by the use of this purely vegetable, tonic remedy for women.

Cardui strengthens, builds, restores, and relieves or prevents unnecessary pain and suffering from womanly troubles. If you are a woman, begin taking Cardui, today.

SUCCESS WITH THE TURKEY

Hen Will Take Better Care of Poults Than Any Human Can-White Holland for Market.

Choose the largest hens from your own flock keeping some of the old quiet ones and one or two young hens. Get a young tom from some neighbor that has a healthy flock. Never keep two toms on the same farm. The worst enemies turkeys have are crows, rats, coyotes and the cholera.

Barrels or boxes filled one-third with straw, laid in the orchard and partly covered with brush make the best nests. Gather the eggs every evening until a hen wants to set. Then give her 16 to 18 eggs in her own nest and set all the other eggs under chickens at the same time. When hatched give all the turks to the turkey hen.

When the next hen wants to set give her some eggs if there is a full setting, otherwise break her up by upsetting the box or barrel containing her nest. If not allowed to set a turkey hen will lay three settings of eggs. Do not set any as late as July as the turks will only be a bother in cold weather. When hatched the hen may taken them to the alfalfa or wheat field and not come back to her nest. If so, let her go. She will take better

Nothing equals turkeys as grasshopper and army worm destroyers. A flock will eat many bushels of insects in a season.

The Mammoth Bronze is the Plymouth Rock of the turkey world, the Bourbon Reds though smaller are favorites because of their domesticity and the White Holland turkey is especially prized as a market fowl for its pink white skin. Young hens usually weigh Paris - Lexington - Frankfort ten pounds, old gobblers twenty-six pounds.

Your Dollar Buys More

When you buy a Studebaker-E-M-F "30" or Studebaker-Flanders "20" you get more for your money, dollar for dollar, than in any other car built.

There may be other good cars—but what is their price? That's the rub. If they really are good cars, they necessarily cost more because comparatively few are built. Some poor cars, you know, are high priced too, so that the dealer can fool you by cutting the price. What a car is really worth, not what it costs, should be your standard.

The Studebaker Corporation has the largest and best automobile factories in the world. We could build and sell any competing car today for less money than its present price. In your Studebaker-E-M-F "30" or Flanders "20" you get full value, because the biggest factories and the best brains in the industry build these cars.

About 5 o'clock Saturday afternoon he took a decided change for the worse and from 8 o'clock on his death was momentarily expected. Elder Smith was a native of England. As he is a comparative stranger here little is known of his life. About twenty-eight years ago he went to Lexington where he took is melted a lead pipe which happened to be located so conveniently near that the water gushed forth and extinguished the incipient conflagration, thus saving the handsome residence. And it was this automatic fire hydrant in operation which attracted Mr. Frank LeBus' attention and showed him the marvelous thing that had come to pass. The story sounds incredible, but it is vouched for by the Cynthiana Log Cabin, one of the most reliable newspapers in the State.

a theological course at the Bible [college, after he returned to his own country and from there to Australia where he preached for a time. About eighteen years ago he returned to to him. This he did not continue long and since then his entire time has been given up to his ministerial work. Shortly after going to the Love Star State he married and this union was blessed with three sons. It was his one ambition that these sons be educated from the same institution where he received the best part of his education. After placing two of these sons in the Bible College at Lexington he and his good wife ill at the home of his daughter, Mrs. wanted to locate near them. Early in January Elder Smith came to Lexington and as the Millersburg church was without a pastor he was recommended to this charge. He visited the town and was later called by the of of the Lancaster fair assolation to act ficial board.
